Aug 2nd-3rd - Very strong thunderstorms produced heavy downpours across much of the Beehive State. Especially hard hit were portions of Davis and Weber county, where widespread street flooding occurred. Several homes in Fruit Heights had basement flooding as well. In Southern Utah, heavy rain over a large area produced flash flooding in the Wahweap drainage north of Big Water.

Top (Left): Heavy rain caused a mudslide in Spanish Fork Canyon. (Right): Crews clearing the mudslide. Middle (Left): Flooding in Farmington from very heavy rain. (Right): Parking lot flooding in Farmington. Bottom (Left): Flooded roads in Layton. (Right): Intersection flooding on Harrison Blvd in Ogden.

Aug 5th - Gusty winds blew ahead of a cold front as it approached Utah. Isolated severe thunderstorms formed along the front in Box Elder county, producing damaging winds that destroyed a barn in Bothwell (right) and dropping ping pong ball sized hail along Interstate 84.

Aug 7th - Thunderstorms with damaging winds and heavy rain moved across much of Utah during the late afternoon and evening hours. A line of storms moved into the Salt Lake Valley just after the end of the Tour of Utah Bike Race, and 2 people were injured as thunderstorm winds knocked over a metal structure near the finish line. Storms also downed several large trees in Henefer, and produced street and yard flooding in Layton.

**Aug 11th -** Scattered thunderstorms brought locally heavy rain and strong gusty winds to most of Utah. The heaviest rain fell along the Wasatch Front, and a strong gust front brought a wall of dust with it from the west deserts into the Salt Lake Valley and northern Wasatch Front during the afternoon hours.

Above (Left): Lightning strikes the Great Salt Lake around sunset (Right): Storm over rural Weber County. Below (Left): Wall of dust along gust front in Farmington. (Right): Gust front approaching South Ogden.

Aug 13th - A strong thunderstorm set up and dumped very heavy rain in the area of Woodland Hills in Utah County. This rain combined with saturated ground from previous rain the last couple of days led to a large mudslide that damaged one home and forced the evacuation of 14 other homes in Woodland Hills.

Above: Large mudslide moves down a hill, into the backyard, and through a basement window in a home in Woodland Hills. Photos courtesy of FOX 13 News.

Aug 19th-22nd - Large wildfires in the Pacific Northwest sent dense smoke into Utah for a few days, reducing visibilities and making for some unhealthy air at times. Meanwhile on the 22nd, strong thunderstorms developed over portions of central and southern Utah. Two of these storms produced flash flooding in Capitol Reef National Park at Sulphur Creek and also at Grand Wash that reached Highway 24.

Top (Left): Satellite view of the smoke from wildfires in Pacific NW. (Right): Smoky skies in Cache Valley. Bottom (Left): Sunrise in the smoke in Richmond. (Right): Heavy rain approaching Wahweap Marina.

Aug 30th-31st - Showers and thunderstorms fired up again mainly during the afternoon and evening. Very heavy rain fell upstream of Wahweap Creek north of Big Water, leading to a massive flash flood a couple hours later on Wahweap Creek. The flood wave carried full size dead trees left over from previous smaller floods, along with boulders the size of cars. No damage or injuries were reported as the large dry creek managed to handle the flow despite its size. Storms across northern and central Utah produced lesser amounts of rain, but some had strong gusty winds and plenty of cloud-to-ground lightning strikes.

#### **High Temperature Records For the Month of August**

**Aug 12th** - Randolph broke their record high minimum temperature 56 (52/1983).

**Aug 14th** - Record high minimum temperatures were tied at Alpine 65 (65/2003) and Provo BYU 68 (68/2011).

**Aug 15th** - Record high minimum temperatures were set at Alpine 71 (66/2000) and Spanish Fork 71 (69/1958).

Aug 26th - Randolph broke their record high minimum temperature 60 (54/2008).

### **Low Temperature Records For the Month of August**

**Aug 3rd** - Record low maximum temperatures were set at Pine View Dam 63 (76/1944), Randolph 63 (72/1993) and Salt Lake City 75 (77/1951).

Aug 4th - Cedar City Airport set a record low minimum temperature 49 (50/1965).

**Aug 7th** - Record low maximums were set at Bullfrog 80 (87/20084), Capitol Reef Nat'l Park 71 (79/2008), Cedar City Airport 73 (78/2009), and Zion Nat'l Park 74 (76/1915).

#### **Record 24-Hour Precipitation For the Month of August**

**Aug 3rd** - Record 24-hour daily rainfall was set at Duchesne 0.81 (0.60/1926), Provo BYU 1.47 (0.67/1930), Randolph 0.37 (0.34/1983), and Spanish Fork 1.14 (0.63/1922).

**Aug 7th** - Record 24-hour daily rainfall was set at Bullfrog 0.24 (0.15/1983) and Cedar City Airport 0.48 (0.40/1987).
